

In-Country Value

Local Human Resources: Omanization

At Al Jarwani Hospitality, a 100% Omani ownership company, we are committed to train and groom the youth of the Sultanate to be a skilled workforce. Our current Omanization figure stands at 30%.

Local Training

We hold strong partnerships with the National Hospitality Institute and the Sultan Qaboos University to fully qualify our workforce under the guidance of experts who share their knowledge and provide additional summer training courses within our organisation. Moreover, we have designed new modules under which our Omani staff are trained abroad on a regular basis.

Local Produce

At Al Jarwani Hospitality, we take pride in using locally sourced raw materials wherever possible. Our ratio of Omani items to imported items stands currently at 45%. As per these figures, we are

trying to procure 57% of the total requirements of our projects from Oman and the surrounding Middle East region. Our catering teams have taken into consideration the usage of local products in the designing of menus and sourcing ingredients.

Corporate Social Responsibility

Our Corporate Social Responsibility drive is set to

embark on an energetic phase where we will be giving back to the Sultanate through a number of initiatives that will translate into benefits for local communities, the society, the ecosystems surrounding our facilities, and the country at large. At Al Jarwani Hospitality, we believe that meeting our environmental and social obligations is not only a duty, it is a way of living.
