Al Aرامي Complex hosts NHI hospitality, tourism exhibition

National Hospitality Institute (NHI) and Al Aرامي Complex have teamed up to bring one of the exciting culinary events to town. The four-day event, which started on Monday, at Al Aرامي Complex will have NHI chefs and students as well as reputed chefs from prominent international hotel chains in Muscat conducting live demonstrations and offering tips to a keen audience.

The event will run until March 31. A plethora of events will be held every evening from 5-10pm. This would include presentations of cake decoration, vegetable carving, mocktail competition and bed making competition to mention a few as well as the popular Waiters' Race with a twist that will cover the base-

ment and two floors of Al Aرامي Complex.

There will also be an English language quiz organised for the first three days and a Travel Quiz on the last day. The winners will be selected by daily draws and will receive exciting gifts and certificates. All the ongoing events will also be displayed on a LCD screen.

Chefs from leading hotels and prominent chains will showcase their talents at the exhibition. These include Al Bustan Palace InterContinental Muscat, InterContinental Muscat and Crowne Plaza Hotel from InterContinental Hotels Group, Shangri-La's Barr al Jissah Resort & Spa, Grand Hyatt Muscat, the newly opened City Seasons, Bamboo

Kitchen and Illy Coffee.

"We often admire a chef's talent on a buffet table, but rarely come across an opportunity to get a glimpse into the dedication and patience that goes into conceiving these 'creations'. We are happy to be hosting the event and look forward to welcoming guests who are sure to be inspired by the culinary display of experts," said Uttam Kotian, manager advertising-marketing, Al Aرامي Complex.

Opened on November 26, 1994, the Al Aرامي Complex houses 90 retail outlets that include prestigious brands in electronics, fashion and lifestyle, food outlets and cafes over three floors covering an area of 15,000sq m.
