

NHI Chairman's Report 2nd quarter 2013

Dear Shareholders,

On behalf of the Board of Directors of National Hospitality Institute SAOG ("NHI"), I am pleased to present to you the unaudited financial statements for the 2nd quarter ended June 2013.

Financial Performance

The company has posted a consolidated loss of RO 64 k for the period from the revenues of RO 266 k as against profit of RO 17 k and revenue of RO 427 k for the same period in the previous year. This is partly due to under capacity in our government funded training programmes caused by difficulties in sourcing students to fill employment demands. In addition to this we have not achieved our targets on the private revenues.

Environment

This quarter has seen an even greater increase in demand for Omanis to be trained for the hospitality and travel industry in Oman. We currently have job requirements from the Hospitality and travel industry. Despite a challenge in the first quarter to find students we are beginning to see a better response to our advertising. In addition to this we have been proactively visiting the interior regions and speaking directly to prospective students and their families. The people interested are asked to come to Muscat where they can be assessed and interviewed by companies who will offer them employment after they have completed their training at NHI. On the private revenue, whilst we have increased sales for some courses over last year, some other have come in below budget however we are pleased to report the signing of a contract with the Royal Office for training of their personnel.

There is still a severe shortage of local Omanis in the local hospitality industry and your company is working closely with employers to find solutions. Your company has been innovative in designing different methods of recruitment and training to allow the flexibility required by this sector. In addition to the fresh school leavers your company is promoting courses for those people already in work and who need to upgrade their skills to allow them to move on with their careers. Your company is also encouraging local employers to improve the appeal of the hospitality industry and to proactively sell their jobs and opportunities to young people.

Whereas the Ministry of Manpower, individuals and companies are key customers, we have also proactively approached several corporate entities to request sponsorship of training through their corporate social responsibility budgets. Your company attracts the interest of corporate by linking training to employment which provides tangible results.

Forward Outlook

With the recent changes in recruitment and the need to hire semi skilled workers there is a growing need for strategic staff development programmes which your company can deliver. In addition to these your company now offers one stop shop for employers who require a mix of ministry funded training , fast track private training and direct recruitment. We believe that this will put us back on the path to profitability. This last quarter saw an agreement between your company and the Ritz Carlton chain of hotels who manage the AL Bustan Palace Hotel. This agreement enables NHI to deliver the theory and to provide international certification for the trainees.

Despite the financial difficulties there have been over the last few years there is no doubt that your companies resources are exactly what are required to address the current drive to increase the number of Omanis working in the private sector and in particular the hospitality sector which is showing year on year growth. The quality, professionalism and work ethic that is instilled to the students is invaluable .

It is our sincere intention to act as a key facilitator at this critical juncture to meet the nation's Omanisation objectives in this sector. We can justly look back with some pride at the achievements of NHI and the contribution it has made to getting Omanis into meaningful jobs in the hospitality sector. We aim to leverage our experience and work with the relevant authorities to deliver on our part of the commitment made by his Majesty toward the people of Oman.

Tarik Al Said

Chairman
